Large Market Building is Started at Broadway and Olive

Davis Market Coming to Lemon Grove

Construction is starting this week on a super market building at the northeast corner of Broadway and Olive.

The new structure, 90 x 120, is being built by Kahan and Walden, pioneer North Park business men, and will be occupied by the Davis Super Market.

Mr. Davis operates a successful market at Chula Vista, serving the South Bay area.

The contract for the building has been let to Packer and Bassett, Lemon Grove builders, who constructed the Dail building across the street west of the new building.

The building is to be completed by May 1 and the new market will be modern in every respect. The equipment will be installed by Hunter Refrigeration Co. of San Diego, and engineered by Chas. Maynard, 3028 Cypress street, Lemon Grove.

The negotiations for the new market and lease were handled by A. H. Harwell, real estate broker at 7880 Broadway.

The erection of this big market building by Kahan and Walden shows their confidence in the growth of Lemon Grove, and the procuring of such a reputable operator as Davis is another forward step in the progress of this community.

The new building will represent an investment of more than \$200,000.

Location Important in Hospital Setting

The maximum tax rate as prescribed by the Hospital District Law is two (2) mills or twenty (20) cents per hundred dollars. To illustrate, if a home (real and personal) is assessed at \$2,500 the tax would be \$5.00, according to proponents.

The problems of the location of the proposed hospital involves a consideration of the following factors: (1) public transportation (2) accessibility to the greatest number of people (3) sanitation (4) water.

Ministers Endorse Proposed Hospital

Endorsement of the Grossmont Hospital District by the Foot-hills Ministerial Association has been announced by the executive committee of the association.

Sanction came in the form of a resolution "which urged all voters to give "consideration and support to the hospital district" drive and a "favorable vote" in the January 8 election.

The resolution pointed to the county's "desperate" need for hospital facilities and the possibility of increasing need through continued building expansion.

Resolution of Local Kiwanis Club Goes Far

Last October the Board of Directors of the Lemon Grove Kiwanis Club passed a resolution condemning President Truman's executive order placing a censorship on news from non-defense departments of the Federal Government.

The resolution was presented to the California-Nevada district convention in San Diego, and after being rewritten was unanimously passed on the floor of the convention.

The resolution went from the District to the International offices in Chicago, where the Board of Directors enlarged upon it and passed another resolution with much stronger language than adopted in San Diego, as follows:

Whereas, history shows that the first printing press was brought to the American colonies in 1639, however, its use was restricted and it was not until 1690 that the first newspaper was published in America, and

Whereas, this one-page newspaper ran only one issue and was immediately suppressed and it was not until 14 years later that a second newspaper appeared, which was a licensed publication for which all stories had to be approved by government officials, and

Whereas, the first periodical which made a telling stand against government control and censorship was published in Boston in 1721 by James Franklin and his brother, Benjamin Franklin, and

Social Security Enrollment For Self-Employed

Practically all self-employed men and women will find they must enroll in the Social Security program early in 1952, whether they expect to participate in the benefits or not.

Amendments to the Social Security Act, passed in 1951, require all persons affected to do two things: Secure a social security account number and card before making their 1951 tax according to income and forward this tax together with the regular 1951 income tax return.

Included in this coverage are those who are in business for themselves and had earnings of \$400 or more during the year, such as store operators, brokers, contractors, and partners in these and similar businesses.

Farmers and most professional men are excluded, unless they are also in businesses covered by the new law.

The rate of self-employment tax for 1951 is 2½% of earnings up to a maximum of \$3600. The rate increases until it reaches 4½% in 1970.

This is one tax that may pay back more than is paid in. Under this program self-employed men approaching 64 who have earnings averaging \$3600 annually for an 18-month period, may be retired at the age of 63 and receive \$80 a month for the rest of his life. This on a total investment of \$121.50 he could collect \$80 per month for many years, and in case his wife is self-employed and comes under this coverage the amount could be \$160 for both.

Smaller retirement benefits are payable on lower earnings, such as \$50 per month on average monthly earnings of \$100, and \$65 on average earnings of \$200, with a 50% additional payment when the wife reaches the age of 65.

THE WASHINGTON Merry-Go-Round

BY DREW PEARSON

Archbishop Released

WITH the release of Yugoslav Archbishop Stepinac from prison this week and a favorable statement regarding this from the Vatican, one of the most important sources of friction between Yugoslavia and the Catholic world should be removed.

No, I result should be greater protection for Italy and the Vatican. For the Yugoslav army is the chief protection of Italy on the northeast. If the Red army should strike, its first objective would be the Adriatic coast, just two hours' bombing distance from Rome.

In talking to the Yugoslav embassy during my exchange of letters with Tito regarding the release of the archbishop, I became convinced that the Yugoslav government is anxious to bring about complete religious freedom.

Recently, the national Catholic welfare conference designated, John Zvelina, a Chicago attorney, to go to Yugoslavia and make a survey to see whether CARE packages were being distributed without prejudice among people of all religions. His report was favorable.

Labor Smoulders

Labor's "stepchild" role in the defense setup, which prompted a walkout by government labor advisers some time back, is heading for another explosion.

Union chiefs are sore as blazes because they are being left out of the policy-making meetings of the defense agencies. Though they were appointed as consultants in the Office of Defense Mobilization, they just aren't consulted.

The labor officials have long demanded an equal voice with industry spokesmen in shaping mobilization policies. They were given this recognition in World War II, with Sidney Hillman of the Amalgamated Clothing Workers serving with William Knudsen of General Motors as heads of OPM. But today, as one disgruntled laborite expressed it, "with Charley Wilson in the cabdriver seat, we're as far from getting this as the man hunting 'Chloe' in the bog."

Biggest current gripe against Wilson is "poor planning" in regard to building materials needed for defense. As a result of material controls, 25,000 building tradesmen are idle in New York City and the figure may go to 75,000 within six months unless more steel and aluminum are located for nondefense construction.

At the same time, Wilson's labor critics complain that he has done little to restrict aluminum for civilian manufacture; also, that Wilson approved construction of a \$11,000-ton steel pipeline to Canada so that the Montana Power Company could supply natural gas to its chief customer, the Anaconda Copper Company.

Another complaint is that labor is no voice in controlling the evils of inflation and monopoly. "All we do is minimize the impact," they remark the union chiefs.

Why They Leave

One reason why Eric Johnston tapped out as stabilization director and Price Chief Mike Di Salle also wants to exit is an upsurge in prices expected in midwinter.

These price rises, according to a strict White House memo, will be a direct result of the way Congress has gone through business bills in the past few months.

Food—Prices on corn, potatoes, fresh fruits, vegetables, dairy products, and poultry will go up. This is because farm-blossom movements prevent OPM from stamping a ceiling on farm prices until they reach the complex parity level.

Manufactured Goods—Prices of household appliances, furniture, and other manufactured goods may be manufactured due to the Capehart amendment which allows businesses to add all cost increases from January, 1950, to July, 1951, to their prices.

OPS experts say this makes enforcement almost impossible. In the place, accountants and lawyers will have to go through business books thoroughly to detect fraud. And, congress cut the OPS request for a bigger enforcement staff.

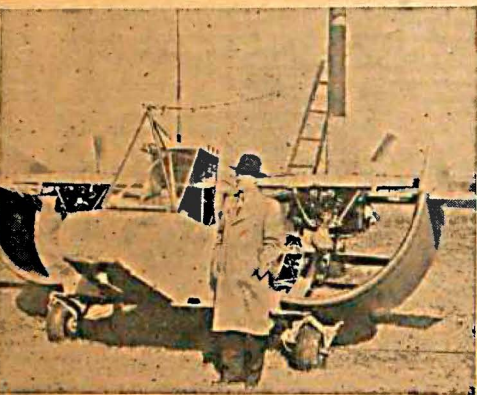

It would wonder Johnston and Di Salle not to get out.

Propaganda

Congressman Kersten of Wisconsin played right into Communist hands—by introducing a public amendment to spend \$100,000,000 to free subversive activities behind Iron Curtain. The Communists now throwing this in our faces over Europe. It also gives them excuse to finance subversive activities in the U.S.A. . . . During World War II, President Roosevelt at \$600,000,000 financing subversives in Germany and Japan.

THREE A CROWD FOR REDS . . . These three pilots have destroyed 14 enemy planes and damaged six. Major George Davis (left), Hale Center, Texas, is leading jet ace of 4th fighter wing with six enemy craft destroyed. Col. Benjamin Preston (center), Hollywood, Fla., group commander, has destroyed three, damaged two, while Major Winton Marshall (right), Raleigh, N.C., has destroyed five and damaged four Russian-built fighters. They met here to tally scores.

DEMONSTRATES CHANNEL WING PLANE . . . W. R. Custer, president of Custer Channel Wing Corp., Hagerstown, Md., stands beside his invention, a channel wing plane which was demonstrated in Pittsburgh. Custer says his plane can take off in a few feet, rise vertically, hover in the air, land vertically and attain speed of conventional aircraft. He claims that jet planes with the wing will be able to take off from a battleship.

WEIGH IN NEW MAYOR . . . Following a custom which originated in High Wycombe, England, in 1906, the newly elected mayor of Minneapolis, Minn., Eric C. Hoyer, is weighed in before taking office. He will be weighed again when his term is up, and it is found that he has grown fat, it will generally be believed that he has grown wealthy, thereby jeopardizing his chances for re-election. Actual weighing was done with scales flown in from High Wycombe.

"MISS BROOM CORN OF 1952" . . . June Meyer, Chicago, relaxes amid a crop of broom corn, from which is made the housewife's best friend—the ordinary house broom (oh, my aching back!). June was awarded the title, "Miss Broom Corn of 1952," at the convention of the national broom manufacturers in Chicago. Now all we are waiting is for some shapely miss to win the title of "Miss Vacuum Cleaner Bag," or for a skinny lass to be called "Miss Mop Handle."

CRITICIZES COLLEGE . . . Judge Saul Stirelt, Chicago, who suspended sentences on three Bradley U. net players involved in fix, blamed Bradley, its president, David Owen, and athletic boosters for "moral debasement" of the three stars involved in the scandal.

INCRIMINATING . . . Richard Schwartz, asst. head of internal revenue's penal division, tells tax protesters that missing witness Henry Grunwald intervened in a tax fraud case with Charles Oliphant, resigned revenue bureau counsel.

Crime in America

St. Louis: Where Gambling Is Big Business

Crime is big business in the St. Louis area. Mostly, the section's shadowy activities are centered on illegal gambling. However, the Senate Crime Committee found that this gambling is not merely the innocent, harmless "biological necessity" which James Joseph Carroll, the cantankerous multi-million-dollar-a-year bookmaker, called it.

In the past 10 years, there have been 25 unsolved gang murders in the Missouri-Southwest Illinois area of which St. Louis is the center—a studied plan of assassinations to control all large-scale commercial gambling and vice.

During this time, five major gangs operated in St. Louis: the Hogan mob, the Egan Rats, the Cuckoo gang, the so-called Green Dagoes, composed largely of Sicilians, and a gang of Americans of Italian descent.

An offshoot of the Sicilian mob was the Pillow gang, so named because its leader, Carmelo Fresina, once was shot in the buttocks and thereafter carried a pillow with him to use when he sat. Eventually, Fresina, an extortionist and bootlegger, was dispatched with two bullets in the head and no longer needed his pillow.

In Central and Southern Illinois, two infamous mobs—the Sheltons and the Birgers—operated.

We gleaned an indication of the magnitude of book-making from testimony of Gambler J. J. Carroll. The 64-year-old Carroll, engaged in some form of horse-betting activities since he was 12, admitted that the Carroll-Mooney bookmaking operation—with huge wire rooms in St. Louis, Mo., and East St. Louis, Ill.—handles "in excess of \$20,000,000" a year in bets. Profits come to approximately \$750,000, and his own take is approximately \$110,000 a year.

Carroll seemed to have a characteristic in common with Frank Costello, a racketeer, wanted to pose as a business man. Carroll, a gambler, glorified himself with the title of "betting commissioner."

It was Carroll who, in St. Louis, became the first witness to decline to testify before the television cameras. "The whole proceeding outrages my sense of propriety," said Mr. Carroll, walking out. I promised him I would recommend that he be prosecuted for contempt. To avoid this, Carroll later came to Washington at his own expense to testify. We had more trouble there but managed to get it over by keeping the cameras off his face.

Another rich St. Louis operation was C. J. Hugh & Co., a clearing house for bets on major sports, operating under the guise of a gold-bronzing company. We questioned two partners in this outfit, Charles J. (Kewpie) Rich and Sidney Wyman. Wyman was a dark, heavy-set man who put on a great show of knowing everything as he taxed his memory for answers to our questions. "Kewpie" Rich was a pudgy, round-faced, unhappy looking soul, who in appearance lived up to his nickname.

Neither would quite admit they were in the gambling business. So we compromised by discussing their business as "Operation X." Their company is less coy. Among other things, we introduced as evidence a circular openly distributed by Rich & Co. which said: "We do not restrict our transactions solely to racing. We would gladly handle wagers on all other sporting events, including baseball, football, fights and elections . . ."

Wyman started off by telling us that "Operation X" grossed about \$1,000,000 a year; after he left the stand, he sent in word through his attorney that he was wrong and the correct figure would be \$4,000,000 to \$5,000,000.

I asked the Russian-born Rich why he never had become an American citizen. He answered he had applied "many a time" but had been turned down repeatedly. I asked why. He unhappily replied: "On account of the business I participate in."

One aspect of both the Rich-Wyman and Carroll-Mooney-Grady operation that gave the committee particular concern was the admitted involvement of the Western Union Telegraph Co.

A raid on the Rich company storehouse turned up a card index of between 100 and 150 names of Western Union agents throughout the United States who acted secretly as betting agents for the Rich & Co. The Western Union employees were given "gratuities" to handle and, in some cases, solicit bets in their communities for Rich. Some even were paid a percentage of Rich's winnings as a commission.

Western Union, of course, found the gambling account highly lucrative.

NEXT YEAR, WE EAT BETTER

Agricultural Bureau Predicts More Food

WASHINGTON—Food supplies in this country will be large enough next year to allow people to eat a little better, the Bureau of Agricultural Economics has predicted. The Bureau also pointed out that the dietary average for the current year is slightly above average.

Consumers will probably pay slightly higher prices, however. In a forecast of the 1952 outlook, the

Bureau said it appears there will be more poultry products, beef, fluid milk, ice cream, fats and oils, excepting butter, frozen fruits and fruit juices, frozen vegetables and dried fruits available next year. Declines were forecast in the consumption of butter and sweet potatoes, with production of these two items on the way down. Farm production costs also are going up.

THE LAST STRAW

A member of the Senate appropriations committee recently warned his constituents that money for local federal projects may not be forthcoming because of the "serious fiscal problems" of the nation. Then, significantly he said, "The feeling of concerted action somewhere against these projects hung like a shadow over the group." Could it be that the proverbial last straw has been added to the backs of the taxpayers and the mysterious "concerted action" which the senator felt overshadowed committee deliberations is nothing more nor less than a quiet rebellion against bureaucracy and governmental waste?

Certainly the time is long past when we can afford to regard government with indifference. At every level—city, county and national—it is continually de-

manding more of our substance. Freedom is in danger of becoming a shopworn figure of speech. It can be lost although the polling booths never close. It can be smothered under the weight of confascatory taxation or assailed by direct economic controls. It can be absorbed by government taking over commercial business enterprises, thus making all workers the "subjects" of a vast government tax exempt monopoly deprived of the right to strike and helpless to vote out the system once it has been established. We are farther along on this grim road than most of us like

to admit. The situation has been highlighted during the past year by the brazen corruptness of countless officials, the steadily depreciating value of money, and the shocking number of federal employees who have been found "poor security risks."

The "concerted action" of a people fearful for the future of the country is sorely needed. S. F.—"Whether we finish up what we got into in Korea, or pull out, the Pearl Harbor of this new war already has fallen on America."

First Confirmation at Lutheran Church

Twelve young people of the Lutheran Church will confirm their Baptismal Covenants by being confirmed at the morning worship service at 10:45 a. m. on Sunday, by the Reverend LeRoy Elster. Following the service they will participate in their first Lord's Supper.

Beginning at the age of 12 years, young people of the church study Bible history and fundamental doctrines of the Scripture under the direction of the pastor.

Next Wednesday, the Rev. Elster will start another adult instruction class preparing for membership in the congregation. The course is of 10 weeks duration consisting of lectures and discussion periods. Pastor Elster has chosen 10 important doctrines of Scripture to lecture on:

1. "The Book of Books, the

Bible."

2. "Our Creeds and What They Are About."

3. "About the Soul."

4. "Our Salvation."

5. "I Believe in the Holy Ghost."

6. "Regeneration, Conversion, Repentance."

7. "I Believe in the Forgiveness of Sins."

8. "Prayer: What It Is and How To Pray."

9. "Scripture on Baptism."

10. "The Doctrine of the Lord's Supper."

The class will meet once a week, each Wednesday at 7:30 p. m. Others who are interested in sitting in on the course are most welcome.

The Lutheran Theological Seminary Choir will present a sacred concert at Our Saviour Lutheran Church located at Ohio and Lincoln, San Diego, on Friday, January 11, at 7:30 p. m. There will be no admission charge. The Lutheran Theological Seminary, located in Minneapolis, Minn.,

trains pastors for the Evangelical Lutheran Church. Pastor Elster of the Lemon Grove Lutheran Church received his theological training at this seminary.

Local Agent Says His Company Sets New Mark in Sales

A. H. Harwell, Lemon Grove agent for Lumbermen's Mutual Casualty Company, announced today that Lumbermen's has passed the \$100,000,000 mark in 1951 sales, thereby setting a new record high for the company in any one year.

Harwell, whose office is at 7808 Broadway was notified of the record sales volume in a letter from James S. Kemper, chairman of Lumbermen's, Chicago.

"I know you are as proud as I am," Kemper wrote Harwell. "I want to congratulate you and thank you for your share in this achievement."

In approximately 11½ months, the company already is almost \$10,000,000 ahead of the previous 12-month high of \$90,242,496 established in 1950, Kemper said. Premium income so far this year is running 19 percent ahead of the comparable period of 1950.

Harwell pointed out that the \$100,000,000 figure was reached by writing premiums at the rate of \$53,420 each hour of every working day.

The present total also is more than 3,380 times greater than the sales volume of \$29,562 of 1912—the year the company was founded.

At the current rate, Lumbermen's agents are matching the 1912 total every 33 minutes.

Federal income taxes in 1951 will exceed \$1,000,000 under terms of the law that sets a floor on taxes for mutual insurance companies regardless of underwriting gains. Dividends to policyholders will approximate \$11,750,000 during 1951.

At present, Lumbermen's is licensed to write business in every state in the Union, Alaska, Hawaii, and the principal provinces of Canada.

Lumbermen's is one of the largest writers of automobile bodily injury and property damage insurance in America. It also writes aviation, group, hospital, personal accident, pollution, fidelity and surety bonds, and workmen's compensation.

Mrs. Marie Howell, 3836 Costa Bella, had as her guests for Christmas dinner, Mr. and Mrs. F. J. Cohen, Ricki and Kathi, Mrs. Anne Curry and son William, Gilbert Babcock and James Howell.

Christmas Seal Sale Quota \$11,000 Short

With the tuberculosis Christmas Seal sale now only \$11,000 short of going "over-the-top," Mrs. C. Peter de Jonge, county seal chairman, said yesterday that she is confident the quota will be reached sometime late this month or early in February.

County returns now total slightly in excess of \$90,000," she said. The minimum quota needed by the San Diego County Tuberculosis and Health Association to continue its fight against TB in 1952 is \$91,000.

Stressing that the quota must be reached as soon as possible, Mrs. de Jonge said that "many persons still haven't had an opportunity to answer their Christmas Seal letters."

She pointed out that these late returns, plus the contributions received through community self-seller coin boxes, are expected to carry the campaign over-the-top.

"Tuberculosis is still this nation's number one killer of all contagious diseases," Mrs. de Jonge said. "It is everyone's enemy. We hope that everyone, who can, will contribute to the local fight against this killer by sending in a check or money order for their Seals."

Contributions should be mailed to the San Diego County Tuberculosis and Health Association, 426 Pennsylvania Avenue, San Diego 3.

Highlanders Meet Sweetwater, Hoover

The Helix Highlanders basketball squad meets the Sweetwater Red Devils tomorrow (Friday) night at 8:15 at the Grossmont gym in their last non-league contest before facing Hoover's Cardinals Tuesday in the 1952 City League basketball opener.

Helix, boasting eight win in nine starts previously this season, wound up with the consolation title in the Kiwanis Tournament before Christmas.

Sweetwater's Metro League club is spirited but inexperienced and must be labeled underdogs to Helix, but Hoover, whom the Highlanders face Tuesday at 8:15 in the Grossmont gym, are even bets against Helix in what promises to be a close contest.

Class B teams open the activities both nights with preliminary games at 7:00 p. m.

Local Y Group Enters Tourney

The Vista La Mesa Hi-Y, defending champions of the annual YMCA Basketball Tournament, will enter the tourney again this year it has been announced.

Under Coach Rollie Daggett, the Vista La Mesans hope to make a good account of themselves, although nearly the entire squad from last season will be ineligible.

The tournament will take place at the YMCA gym beginning late this month.

Drifting

The Drifters sincerely hope that everyone had a happy and safe holiday. Although the National Safety Council predicted that 350 families would lose a member, so far, only about 285 people have needlessly lost their lives through traffic accidents, and to end on a happy note, none died in San Diego on New Year's Eve.

All people have hobbies, and naturally the drifters in automobiles, so it may not be surprising that the Drifters are building a roadster. The car was originally a 1937 Oldsmobile tudor, but what is more disgusting to a true roadster man than a tudor? The first thing, then, is to strip off the body and discard it, a feat which was performed at one of their Sunday morning meetings at 7910 North Ave. On the next Sunday, the motor was removed and stripped. In the coming weeks, the Drifters expect to rebuild the motor, build a body on the chassis, and fully equip the car for road and track.

Norman Terry, president, is a native Lemon Grove boy, having been born here in 1930, went through Lemon Grove grade school, graduated from Grossmont, and like most Drifters, is employed. Bill is an assembler at Convair. In his off hours, he and his steady, Jeanne Devers, also a Lemon Grove resident, buzz out in Bill's 40 Ford coupe. Bill claims his car is stock, that is, having no extra power or speed equipment, and, of course we believe him, after all, isn't he president? Bill has been a car enthusiast for quite a while, having started with an old "A-banger" which he rebuilt to a pickup. Bill was the first president of the club, and one of the founders.

Next week we will run a thumb-nail sketch of another colorful personality of the club.

The Drifters feel that in these days of wet, slippery pavements, now is a good time to revive that old saying: "Courtesy is something we all have, but hardly ever use." This week let us

Resolution

in America was not really established until the trial of John Peter Zenger, in New York in 1735, which resulted in a verdict of "Not Guilty," and

Whereas, the growth of our nation and all free nations is firmly identified with freedom of the press and free dissemination of news, and

Whereas, the Constitution of our Republic established a government of the people, by the people, and for the people, which in effect means that all of its officials are employees of the people, and

Whereas, any withholding of information of its departments, not directly connected with the military defense, is inconsistent with the principles in which we believe.

Be it therefore resolved, that Kiwanis International expresses grave concern over the executive order issued by the President of the United States on September

2, 1951, relating to the handling of information, and

Be it further resolved that Kiwanis International recognizes the responsibility of the President of the United States to strengthen military security, however, we urge the countermanding of the aforementioned executive order as it relates to all departments not directly concerned with national security.

Bear in MIND

When you sit right down and think about it, there is no difference between shopping for insurance and shopping for a piece of meat. When you drop in on the butcher and ask for a pot roast, you do not expect to unwrap a porterhouse steak when you get home. You have paid for pot roast and that is what you get. Unfortunately for everyone, many people think that insurance is all porterhouse steak. That is why we want every one of our clients to know and to bear in mind what they ordered and paid for — insurance-wise. It certainly saves a lot of headache when a loss or a claim comes along.

The minister, while seated in his study with a friend, noticed a loose nail in one of his bookshelves. He went in search of a hammer, and, returning, struck a mighty blow, but missed the nail and struck his finger. He stood for a few minutes, saying nothing. Finally, his friend remarked, "My dear fellow, that was the most profane silence I ever heard."

Mother: "Did you enjoy the party last night?"
Son: "I'll say I did. And I met a marvelous girl, too."
Mother: "I'm glad of that. Is she attractive and does she dance well?"

No Worry

Kind old lady, seeing boy smoking — "Sorry, you had better stop that or you'll never grow up to be President."
Boy: "That's all right, lady, I'm a Republican anyway."

SUGGESTION

A family was getting into a new house. All the effects were moved by truck except a grandfather's clock which the husband, who was a lover of antiques, decided to tote himself. As he staggered around the corner with it, he bumped into an Englishman.

"Aw, hi say, old fellow, wouldn't it be more convenient to carry a watch, now?" asked the visitor from overseas.

Not Satisfied

Gai One: Your fiancé is charming; he has that certain something."
Gai Two: "I know, but father wishes he had something certain."

Prescription

Patient: Doctor, what I need is something to pep me up, something to get me in a fighting mood. Did you put anything like that in this prescription?
Doctor: No. You will find that in the bill.

PERFECT CURE

Jake: "Your wife used to be so nervous. Now she doesn't seem to show a sign of it. What did you do for her?"
George: "That was easy. The doctor simply told her nervousness was a sign of age."

Suits Her

"Madam, we can't allow your dog in this theater."
"Well! If it's that kind of a picture, I don't want to see it."

FLYING PAR

Mr. Brown invited Mr. Jones to join him at his club for a game of golf. Each time Mr. Brown teed off, the air was filled with earth. At the ninth hole he said to Mr. Jones, "Well, what do you think of our course here?" "To tell you the truth, Old Man," replied Mr. Jones, "it's the best course I ever tasted."

Escape Clause

George Ade recalled that among the multifarious jobs he held in his youth was a two-year hitch with a patent medicine company. "They guaranteed an absolute cure of the tobacco habit," the celebrated humorist reminisced, "provided the patient strictly followed the directions on the bottle." "But how could they make such a guarantee?" someone inquired. "Oh, that was easy," Ade explained. "The first direction on the bottle was 'Give up the use of all forms of tobacco at once.'"

Dogs, Too, Soon Will Be Freed From B. O. Worry

NEW YORK—The personal daintiness for which humans now spend \$34 million annually in buying deodorants, is to be extended to beasts.

Dogs, too, can now enjoy that freedom from "what your best friend won't tell you" by eating new deodorant canned dog foods which are guaranteed to take away B.O. and halitosis. They went on sale in Pacific Coast states around mid-November and, soon will be available nationally. The sweetness that chlorophyll tablets brought to the chlorophyll derivative called chlorophyllin brings to dogs.

It was New York veterinarian Dr. Maurice Serling, of Serling Laboratories, Inc., who decided to try the benefits of chlorophyll to the canine species. He fed tablets experimentally to dogs of various breeds and sizes having assorted breath and body odors, with such encouraging results that research into chlorophyllin was the logical next step.

Nine months' exhaustive tests followed in which dog foods with chlorophyllin added were fed to a cross-section of dogs of every breed, age and size who were suffering from offensive odors of every kind, ranging from "fishy" mouth odors to pungent body smell. Serling found chlorophyllin acted as a neutralizer for malodorous substances and, in proper dosage, apparently does not affect normal digestive activities.

During the chlorophyll phase of his research, Dr. Serling found that some odors take longer to eliminate than others. It took 6 to 12 hours longer to eliminate body odors than mouth odors, for instance. He also found that many odors arose from unknown causes or from very mild skin irritations. Several dogs having eczema, for example, were bathed, getting transient relief from the characteristic odor, but it came back the next day. When tablets were administered, however, the odor cleared and recurred only when medication was discontinued. During the study, a particularly warm day brought a doggy smell to the wards of the veterinary hospital where the animals were kept. One chlorophyll tablet mixed in each dog's food eliminated the odor from the wards in about 12 hours.

Request for Booklet Cause for Speculation

STORMVILLE, N.Y.—A New York state citizen here who merely wanted to improve his living conditions stirred the local police into feverish activity.

His request, mailed to the Minneapolis-Honeywell Regulator Company for its booklet "How to Modernize for Comfort," was relayed to authorities here.

Why? The ambitious New Yorker is inmate No. 219, in Greenhaven Prison here.

Marine Pilot Gets Four Tanks with Single Bomb

WITH THE FIRST MARINE AIRCRAFT WING IN KOREA—The infantry has confirmed that Marine First Lieutenant James McCleery destroyed four enemy tanks with one napalm bomb. He had to. It was the only weapon he had left.

Lieutenant McCleery of St. Louis, Mo., and his wingmate from the Marine "Devil" squadron, First Lieutenant Loren W. Calhoun of Ashton, Ill., were near the end of an armed search over North Korea when they spotted the Communist tanks.

The Marines had used up all their bombs, rockets and machine gun ammunition. They carried one napalm fire bomb as their only weapon.

Flying extremely low, Lieutenant McCleery discovered the four cleverly camouflaged tanks protruding from a natural relevation under an overhanging hill.

This was a larger order than he had figured on, but he decided to make the napalm bomb do as much damage as possible. He set his Corsair fighter-bomber into a dive and released the napalm tank. It landed right in the middle of the target and splattered its fire over the four tanks.

When the pilot left the area, all the tanks were burning. Two days later, an infantry unit moved north through the area and sent word back that all four tanks were burned out and destroyed.

Boy Tries to Rob Store, Way It's Done 'On Radio'

PORTLAND, Ore.—A 10-year-old boy, failing in the attempt to rob a grocery store, said that he got the idea from radio.

"You hear these guys on the radio pulling these jobs and it seems real easy. I just wanted to see if it was."

Police said that the grocer, John E. Myers, handed the boy the money he demanded, then wrested the gun away from him. He gave this story: The boy, masked behind a red bandana, entered the store with a .38 calibre revolver and said, "This is a holdup. Put the money in a sack or I'll shoot!" Myers said he handed the money with his left and grabbed at the gun with his right hand. "He put up quite a battle," Myers told police.
